► VALIDATE THE LONG STAY VISA

You must validate it online within three months after your arrival.

If you are a student holding a "School-going minor" visa, you must contact the International Relations Department of ULCO to find out the procedure to follow.

► OPEN A BANK ACCOUNT

Opening a bank account in France will be very useful for the different administrative and financial steps you will have to make.

Usually the documents required to open a bank account are the following ones:

- an identity document (identity card or passport),
- a proof of address with your name on it (rental contract or lease, university residence certificate, electricity bill, etc.),
- a student card (optional, in case of preferential rates for students)

Please note that a temporary accommodation contract will not be valid to open the account, it is necessary in most cases to have a rental contract on which your name appears.

► HAVE ACCESS TO INTERNET

Once you have your rental contract and your bank account open, you can subscribe to an internet connection package with the providers who offer this service.

The university offers students Wi-Fi access by connecting with their ULCO login.

There are many places in the cities with free internet access (libraries, public transport).

JOURNÉES DU PREMIER EMPLOI
Université du Littoral Côte d'Opale

The Université du Littoral Côte d'Opale and its students organize the JOURNÉES DU PREMIER EMPLOI (JPE) every year.

After a morning dedicated to exchanges with former students, almost six hundred of our future graduates will meet with more than a hundred professionals during mock interviews in order to compare their applications with an expert opinion in their fields of expertise: a great opportunity for students and companies in the Boulonnais, Calais and Dunkirk areas.
